

Health and

bloodcirculation

Compression-sock supplement

Meida Night-boots offers you comfortable warmth, no sweat

Allergy neutral.

Ceramic micro fibers known for reflexing your body heat (infra-red rays) extra.

Infra-red rays-warmth increases the oxygen in the blood which increases the blood circulation.

Breathability by MEIDA® at a high level keeps your skin dry and comfortable.

Take on the boots takes app. 30 seconds. The special design proves to be more than 10 times quicker than compression band/socks.

By swollen feet/legs the use of MEIDA® night-boots will minimize the need for massage very much.
